LEARNING REFLEXION

LEARNING REFLEXION

Mafer Barrón: This unit helped me to be able to know the things in which I am good at working and I reaffirm that teaching is the best job for me, in addition to this I encouraged to use the “if" to make sentences. I feel that I have learned many things and I hope to continue learning more.

Mafer Dávila: This unit helped me to know the skills of people and mine, I learned about the use of "if" and its Structure, the most important thing is that I realized that this career is not the best for me since I have other skills , but I learned interesting and new things

Caro Ortega: What I learned in this unit was to discuss about job skills that each person has, also to discuss about different kinds of jobs. I learned the importance of the jobs kills for this century. I can use gerund for short responses and the clauses with because for giving a reason.
I understand very well descriptions of skills and personality traits and I also learned how to give reasons for my opinions in a good and polite way.

Karen Muñiz: In this Unit I learned about the different skills that exist in a job. I knowed new vocabulary and helped me to describe the personality of a person and myself. Also I did sentences with the "if" clauses, for this I need a possible situation in present and a consequence in future.
