Herrera Ramos Diana Virginia

I liked doing these activities. The topics captured my interest and helped me remember some grammar rules I had forgotten. At first I was a little lost because there were topics that I did not remember, but by repeating the activity I was able to do better. I believe that I must continue working on this type of exercise to reinforce my knowledge and not forget them. I liked that there were filters where we could choose the level, the skill and the time. I consider this to be one of my favorite ways to learn English.
