English level A2.1

BUILDING CONFIDENCE IN COMMUNICATION

Teacher: Mayela Alejandra del Carmen Gaona García

Student's name: Lluvia Hefziba Perez Arreola #18

BOOK UNIT 4 IT'S THE COLDEST CITY

PROJECT: The best place to visit.

(Worth 30% of the grade)

LEARNING OUTCOMES:

Students will be able to use the vocabulary of landscapes and adjectives to describe places, the temperatures, distances and measurement use comparatives and superlatives.

Salttillo, Coahuila

March 2024

I present
**The Agua
Azul
waterfalls**

The Agua Azul Waterfalls

Welcome to the Agua Azul Waterfalls, these are located in the north of the State of Chiapas, on the border of the municipality of Tumbalá and the municipality of Chilón.

Its name is due to the beautiful blue color of its waters, which is created by dissolved salts and carbonates.

Its waterfalls fall down natural steps of different rivers, forming deep canyons of this turquoise blue water.

The Agua Azul Falls are the most beautiful waterfalls in the world, you can visit some viewpoints, the complete route is around 2 kilometers.

Coahuila is larger than Chiapas.

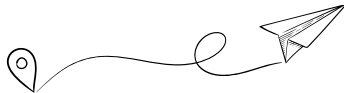

The highest temperature in Agua Azul is 32°C in May and the lowest is 26°C in January.

The best time to visit Agua Azul is from January to May or July to November to December.

I invite you to visit the Agua Azul Waterfalls.

SELF-ASSESSMENT

SELF-ASSESSMENT

How well do you do these things?	<u>Very well</u>	OK	<u>a little</u>
Identify and use vocabulary of landscapes	●		
Give a definition or describe with words a natural landscape			●
Use comparatives adjectives to describe temperature, distance or measurements.	●		
Use superlatives adjectives to describe temperature, distance or measurements.	●		
Use questions with how to ask about temperature, distance or measurements.			●

What can you do to improve? (opportunities)

I could improve my pronunciation and practice the vocabulary and grammar of the units on my own.

General Requirement

Vocabulary Unit 4

- Vocabulary of landscapes (at least 3 words)
- Description of the natural landscape (at least 3 definitions)

Grammar and language functions

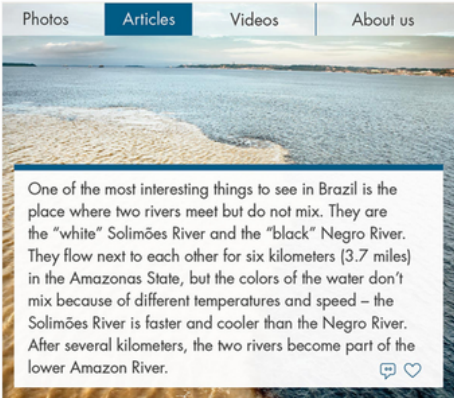

- Use comparatives to describe temperatures, distances and measurement (at least 4)
- Use superlatives to describe temperatures, distances and measurement (at least 4)

Format

- Coversheet
- 10 lines min in PDF format
- Creativity
- Include self-assessment

Example of the article

(student's book pg 96 ex 14)

The screenshot shows a website interface with a navigation bar containing 'Photos', 'Articles', 'Videos', and 'About us'. The 'Articles' tab is selected. Below the navigation bar is a large photograph of a wide river with a sandy bank in the foreground. A text box is overlaid on the bottom right of the image, containing the following text:

One of the most interesting things to see in Brazil is the place where two rivers meet but do not mix. They are the "white" Solimões River and the "black" Negro River. They flow next to each other for six kilometers (3.7 miles) in the Amazonas State, but the colors of the water don't mix because of different temperatures and speed – the Solimões River is faster and cooler than the Negro River. After several kilometers, the two rivers become part of the lower Amazon River.

At the bottom right of the text box, there are two icons: a speech bubble and a heart.
