Grutas de Tolantongo

An incredible place to visit located in the state of Hidalgo, the Grutas de Tolantongo Tourist Center is a set of caves and grottoes, it has a main grotto in which the water flows very fast, even faster than the Huasteca Potosina towards the Tolantongo River , and there is also a smaller tunnel, approximately 40 meters, both in the same wall of the Tolantongo Canyon. From the main grotto, hot springs that are the most relaxing I have visited and the bluest in all of Hidalgo flow into the river, where two different tourist complexes are located; These have camping areas, several swimming pools, restaurants, hotels, cabins, shops and recreation areas.

I can say that the food is not the tastiest, because it doesn't taste very good, the food in the north is tastier.

The place is incredible because I saw the largest and longest camp of my life, without a doubt the Tolantongo caves are the more interesting destination you can take.
