My trip to Cancun

Last month I went on a trip with my friends to Cancun, in which we traveled 1510 kilometers to get there, Cancun is a place that I highly recommend, because for me, it has the most beautiful and blue beaches I have ever seen, but the weather at that time was hot but there was a lot of rain, which is why I do not recommend traveling during the time of March because the rains are horrible, but despite this the weather was very hot. Cancun is around 400 kilometers long and is surrounded by small beaches, the ones I was able to visit were Dolphin Beach, Turtle Beach, Whale Beach, and Caracol Beach. But when we compared them, we could notice that the Caracol beach was much bluer and clearer than the Turtle beach. On the second day we visited the Xcaret park, which measures approximately 80 hectares long, so we started early to explore it, we toured the largest river in this park that was 1.60 meters deep, there were different activities, but I consider that the final show of the night, it was much more fun than the bird show, although I would visit both again.

Aim: Write an article about a place in your country that you think tourists would like to visit.

Could be a beach, desert, lake, island, mountain, river. Waterfall or volcano.

Write a paragraph about the place (10 lines) mention the name of the place, when es the best time to go there?

why do you recommend the place? Activities you can do there, include adjectives to describe the place

measurements and distances (use at least 8 compare or superlative adjectives)

Materials: PDF. With the text of the article. (Add a picture of the place)

The 'Articles' tab is highlighted. Below the navigation bar is a large landscape photograph of a river. Overlaid on the bottom right of the photo is a white text box with a blue border containing the following text: 'One of the most interesting things to see in Brazil is the place where two rivers meet but do not mix. They are the "white" Solimões River and the "black" Negro River. They flow next to each other for six kilometers (3.7 miles) in the Amazonas State, but the colors of the water don't mix because of different temperatures and speed – the Solimões River is faster and cooler than the Negro River. After several kilometers, the two rivers become part of the lower Amazon River.' There are small icons for a comment bubble and a heart at the bottom right of the text box.</p>

Present. *Class activity.*

- 1) Students talk about their article in front of the class. Students are encouraged to be creative and realistic in their presentation.
- 2) Students Video record their performance.
- 3) Students place their article, with their performance in class and a cover page on this instructions file. (make sure the video is in optimal conditions so it can be evaluated)
- 4) Complete the self-assessment at the end of this file
- 5) Save as a PDF file and upload on the ESCUELA EN RED project activity.
