GET TO KNOW YOU

My name is Blanca Isela de la Cruz Saucedo, but I like that to people call me Isela. I was born in Saltillo, Coahuila on April 06, 2004.

I come from a very large family, which consist of my mother, my father, my 4 siblings and me, we are 7 members who always support each other.

Currently I'm 20 years old and in two weeks I'm going to get married, I don't have children, but I'm expecting one on the way.

In my free time I like to go for a walk with my partner, we like to listen to rock in English while we are on the road. If I had more free time I would use it to read scientific magazines or to practice some sport or artistic discipline.

I usually use my time to study, since I entered elementary school I have been taught English, I remember that in high school I watched animated series in English like SpongeBob, but I think I learned more in college because in classes I took my computer to practice in applications that asked me for my email (isela-abril@outlook.com), also at home I used my phone and internet service to continue practicing.

I think that learning English is very important because it's considered the second world language and to obtain better job positions it's and indispensable requirement.
